Statement by DBEDT Director James Kunane Tokioka

The visitor industry impacts our economy in many ways. We saw state general excise tax revenue decrease 9.7 percent and transient accommodation tax revenue decrease 12.9 percent in May 2024 as compared with the same month a year ago.

Though the U.S. market is weakening, arrivals in May 2024 were still 4.5 percent higher than the same month in 2019. The recovery from Japan was much lower than expected due to the depreciation of the Japanese currency. The 46,124 visitors from Japan in May were the lowest during the past 12 months.

As currently scheduled, the air seats for the flights scheduled to Hawai'i from June through August 2024 will increase 2.4 percent from the same period last year. This is an improvement since air seats to Hawai'i were flat during the first five months of this year.
