Vision Insights

Destination Brand Health Trends

March 11, 2025

Vision Insights Syndicated Survey

- DBEDT subscribes to Vision Insight's Brand Health and Profiles databases for the United States (U.S.), Canada, Japan, Australia, and Korea
- Consumers are surveyed each day
- Data reflects two-week moving average except for the intent to travel metric to any Hawaiian Island, which reflects one-week moving average
- DBEDT receives access to new data each week for daily brand health tracking metrics – media-focused, brand health, purchase/intent, and consumer status

Brand Health Metrics

- **Destination Awareness:** Percentage of people that are aware of a destination
- **Chatter (Net):** Net percentage of people who heard something positive about a destination and people who heard something negative about a destination in the last 2 weeks
- **Consideration:** Percentage of people who are “Likely” to “Very Likely to Consider” a destination for their next vacation (Top 3 box of 8-point scale)
- **Favorability:** Percentage of people who rated a destination as “Favorable” or “Very Favorable” (Top 2 box of a 5-point scale)
- **Intent to Travel:** Percentage of people who intend to travel to a destination

Destinations

- Respondents are asked about:
 - State of Hawai‘i
 - O‘ahu
 - Maui
 - Lāna‘i
 - Moloka‘i
 - Kaua‘i
 - Hawai‘i Island
- Selecting State of Hawai‘i indicates respondents’ awareness/chatter/consideration/favorability for the overall Hawai‘i brand (the concept of a beautiful place called “Hawai‘i”) and lack of familiarity with individual islands

2023-2025 Significant Dates

July 31, 2023 –
