February 2025 Hawai'i Vacation Rental Performance Report

Vacation rentals across Hawai'i reported increases in average daily rate (ADR), demand and occupancy rate, with lower supply in February 2025 when compared to February 2024. In comparison to pre-pandemic February 2019, ADR and vacation rental supply were higher in February 2025, but vacation rental demand and occupancy were lower.

In February 2025, the total monthly supply of statewide vacation rentals was 647,700 unit nights and monthly demand was 410,300 unit nights (Figures 1 and 2). This combination resulted in an average monthly unit occupancy of 63.3 percent (+2.6 percentage points vs. 2024, -19.0 percentage points vs. 2019) for February. Occupancy for Hawai'i's hotels was 79.3 percent in February 2025. Please note that February 2024 had an extra leap-year day whereas 2025 and 2019 did not.

The ADR for vacation rental units statewide in February was \$376 (+10.9% vs. 2024, +73.6% vs. 2019). By comparison, the ADR for hotels was \$379 in February 2025. It is important to note that unlike hotels, units in vacation rentals are not necessarily available year-round or each day of the month and often accommodate a larger number of guests than traditional hotel rooms.

The data in DBEDT's Hawai'i Vacation Rental Performance Report specifically excludes units reported in DBEDT's Hawai'i Hotel Performance Report and Hawai'i Timeshare Quarterly Survey Report. A vacation rental is defined as the use of a rental house, condominium unit, private room in a private home, or shared room/space in a private home. This report does not determine or differentiate between units that are permitted or unpermitted. The legality of any given vacation rental unit is determined on a county basis.

Island Highlights

In February 2025, Maui County had the largest vacation rental supply at 187,900 available unit nights. Unit demand was 120,700 unit nights, resulting in 64.3 percent occupancy (+0.1 percentage points vs. 2024, -22.2 percentage points vs. 2019) and ADR at \$490 (+11.2% vs. 2024, +68.4% vs. 2019). For February 2025, Maui County hotels reported ADR at \$578 and occupancy of 71.4 percent.

Oʻahu vacation rental supply was 186,400 available unit nights. Unit demand was 120,200 unit nights, resulting in 64.5 percent occupancy (+2.2 percentage points vs. 2024, -16.3 percentage points vs. 2019) with ADR at \$292 (+10.2% vs. 2024, +84.4% vs. 2019). In

February 2025 Hawai'i Vacation Rental Performance Report Page 2

comparison, O'ahu hotels reported ADR at \$282 and occupancy of 82.3 percent for February 2025.

The island of Hawai'i vacation rental supply was 159,800 available unit nights in February. Unit demand was 100,700 unit nights, resulting in 63.0 percent occupancy (+4.5 percentage points vs. 2024, -14.8 percentage points vs. 2019) with ADR at \$301 (+12.6% vs. 2024, +79.6% vs. 2019). Hawai'i Island hotels reported ADR at \$459 and occupancy of 80.4 percent.

Kaua'i had the fewest number of available vacation rental unit nights in February at 113,600. Unit demand was 68,600 unit nights, resulting in 60.4 percent occupancy (+4.6 percentage points vs. 2024, -24.9 percentage points vs. 2019) with ADR at \$433 (+6.5% vs. 2024, +50.7% vs. 2019). Kaua'i hotels reported ADR at \$415 and occupancy of 79.9 percent.

Tables of vacation rental performance statistics, including data presented in the report are available for viewing online at: http://dbedt.hawaii.gov/visitor/vacation-rental-performance/

About the Hawai'i Vacation Rental Performance Report

The Hawai'i Vacation Rental Performance Report is produced using data compiled by Lighthouse Intelligence, Ltd. (formerly known as Transparent Intelligence, Inc.), which was selected by DBEDT as the provider for these data services.

The report includes data for properties that are listed on Airbnb, Booking.com, Vrbo and TripAdvisor. Data for units included in DBEDT's Hawai'i Hotel Performance Report and Hawai'i Timeshare Quarterly Report have been excluded from the Hawai'i Vacation Rental Performance Report. This report also does not determine or differentiate between units that are permitted or unpermitted. The legality of any given vacation rental unit is determined on a county basis. DBEDT and HTA do not support illegal vacation rentals.

Lighthouse enriches their occupancy and price calculations with reservation data provided by vacation rental software providers, online travel agencies and local property managers. Currently, the reservation systems data provided by data partners represent about 32.1 percent of the estimated total unique vacation rental properties in the State of Hawai'i. On a county level, reservation system data represents 28.5 percent of Maui County coverage; 37.7 percent of Honolulu County coverage; 34.4 percent of Hawai'i County coverage; and 26.0 percent of Kaua'i County coverage of the estimated number of unique vacation rental properties.

For February 2025, the report included data for 31,773 units, representing 55,140 bedrooms in the Hawaiian Islands.
