### **About the Hawai'i Hotel Performance Report**

The Hawai'i Hotel Performance Report is produced using hotel survey data compiled by STR, Inc., the largest survey of its kind in Hawai'i. The survey generally excludes properties with under 20 lodging units, such as small bed and breakfasts, youth hostels, single-family vacation rentals, cottages, individually rented vacation condominiums and sold timeshare units no longer available for hotel use. The data has been weighted both geographically and by class of property to compensate for any over and/or under representation of hotel survey participants by location and type.

For May 2025, the survey included 170 properties representing 48,339 rooms, or 85.5 percent of all lodging properties with 20 rooms or more in the Hawaiian Islands, including full service, limited service, and condominium hotels. The May survey included 85 properties on O'ahu, representing 29,860 rooms (96.0%); 40 properties in the County of Maui, representing 9,581 rooms (70.8%); 23 properties on the island of Hawai'i, representing 5,238 rooms (77.7%); and 22 properties on Kaua'i, representing 3,660 rooms (71.1%).
