Aloha kākou,

When we accepted our respective positions as President/CEO and Board Chair of the Hawai'i Tourism Authority in mid-2015, we were advised Hawai'i tourism could be facing a downturn in 2016.

This outlook was especially sobering considering the record run of success that Hawai'i's tourism industry had enjoyed since 2012.

Thankfully, Hawai'i tourism has continued to thrive. In fact, 2016 is on pace to become the State of Hawai'i's best year ever for visitor arrivals, visitor spending and tourism-generated state tax revenue.

This is an achievement all of Hawai'i shares in, as the cumulative impact of tourism's success is realized in some form of daily life by every resident, business, charitable organization and community throughout the state.

As 2016 began, HTA had established a solid foundation to advance Hawai'i's marketing of tourism. HTA's new leadership streamlined its operations, created a precise budget, improved its measures of accountability for marketing contractors, and finalized a strategic plan to guide HTA's direction for the next five years.

Throughout 2016, HTA implemented a vision to expand Hawai'i's reach to a broader base of global travelers, both to maintain the momentum of tourism's success and to more effectively engage the younger generation of travelers known as millennials, the nation's largest population segment.

Greater usage of technology to market Hawai'i tourism is essential to the industry's success. HTA introduced key initiatives utilizing cutting-edge technology to increase awareness of Hawai'i's brand appeal, notably:

- GoHawai'i mobile app, the State of Hawai'i's first travel destination app.
- Hawai'i VR, the State of Hawai'i's first virtual reality program showcasing the Hawaiian Islands.
- Discover Your Aloha, a groundbreaking facial recognition software program marketing Hawai'i travel in partnership with Expedia.

In addition, development was initiated on a new, more interactive GoHawai'i website that will debut in 2017.

A special accomplishment of 2016 was the Hawai'i Convention Center recording an annual profit for the first time since opening in 1998. We appreciate the strategies and diligence that AEG Facilities has employed to turn around Hawai'i's premier meeting facility.

Competition to entice travelers from well-funded destinations worldwide is constant and intense. HTA needs to always push forward with innovative strategies to promote Hawai'i's unmatched allure and authenticity.

HTA will continue to balance its marketing of tourism with support of events, programs and initiatives to help perpetuate the Hawaiian culture and preserve Hawai'i's natural resources. These two qualities, more than any other, elevate Hawai'i as a destination to treasure and remember.

In closing, 2016 was a superb year for Hawai'i tourism and the support of our government leaders, industry stakeholders and marketing partners was instrumental to the economic benefits enjoyed by residents and businesses statewide. We look forward to a continued collaboration on their behalf in 2017.

OVERVIEW OF THE HAWAI'I TOURISM AUTHORITY

The Hawai'i Tourism Authority was established in 1998 through a legislative act as the lead state agency for Hawai'i's tourism industry. This same act also established the Tourism Special Fund – a set percentage of the Transient Accommodations Tax (TAT) collections that is assessed on hotels, vacation rentals and other accommodations to be used by HTA to market, develop and support Hawai'i's tourism economy. Among its responsibilities, HTA is charged with:

- Setting tourism policy and direction from a statewide perspective.
- Developing and implementing the state's tourism marketing plan and efforts.
- Supporting programs and initiatives perpetuating the Hawaiian culture, Hawai'i's natural resources, and community festivals and events statewide.
- Sustaining the goals in the HTA Five-Year Strategic Plan: 2016.
- Managing programs and activities to sustain a healthy tourism industry for the state.
- Coordinating tourism-related research, planning, promotional and outreach activities with the public and private sectors.
- Encouraging distribution of visitors across all of the Hawaiian Islands to balance capacity.
- Fostering greater collaboration with other state agencies.

OPERATIONS

HTA is administratively attached to the Hawai'i State Department of Business, Economic Development and Tourism (DBEDT). HTA's president and chief executive officer reports directly to the HTA board of directors and is responsible for assisting the board in its responsibility to execute the mandates of Chapter 201B of the Hawai'i Revised Statutes.

As 2015 came to a close, the Hawai'i Tourism Authority completed a Five-Year Strategic Plan to guide the vision, planning, work product, objectives and goals for its support of tourism on behalf of the Hawaiian Islands.

HTA established four goals in the Strategic Plan that it constantly strives to achieve in the fulfillment of its service for Hawai'i's tourism industry.

GOAL 1: Improve the Integrity of the Destination

GOAL 2: Ensure Stable Economic Benefits

GOAL 3: Elevate Hawai'i's Value Perception

GOAL 4: Strengthen HTA's Reputation

The contents of the 2016 Annual Report are presented for review under the same guidelines of the four goals.

MEASURES OF SUCCESS

The Hawai'i Tourism Authority Five-Year Strategic Plan serves as the road map for addressing short- and long-term goals to achieve measures of success based on research data, market intelligence, input from stakeholders, and collaboration with industry associations. Targets have been established as a means to measure the success of attaining the strategic plan goals.

BRAND MANAGEMENT PLAN

The Hawai'i Tourism Authority Brand Management Plan describes the objectives, strategies, actions and evaluation approach that HTA will undertake to achieve the goals within the HTA Five-Year Strategic Plan. Initially, Hawai'i Revised Statutes Section HRS 201B-6 required HTA to prepare a tourism marketing plan as a single comprehensive document, to include its brand management efforts, targeted markets, performance goals and targets, and guidelines for programs implemented through contracts with destination marketing organizations. During the 2014 Legislative Session, amendments were made to the statute for clarity and organization of the chapter, calling for replacing "marketing and promotion" with "brand management" where appropriate. HTA therefore prepares a brand management plan rather than a marketing plan.

The plan includes detailed execution strategies for brand marketing – including the individual brand management plans by major market area – as well as execution plans for HTA's brand maintenance, brand experience, communications and research programs. It also presents an operational plan that organizes HTA for success. This document frames HTA's 2016 efforts to address the needs of Hawai'i's tourism industry and improve the continuity of business to maintain its standing as the foundational economic driver for the state. These plans will also guide HTA into the future, aligning its strategic vision through the next five years, bringing structure to its initiatives, and identifying and prioritizing the most pertinent issues.

HTA's programs in this plan are aligned under the areas outlined below:

- 1) Awareness, conviction and access
- 2) Unique and memorable experiences (competitive advantage and experience quality)
- 3) Knowledge and collaboration
- 4) Strategic oversight and governance

The purpose of this structure is to enhance the efficiencies in HTA management, create stronger emphasis on the core areas by grouping related programs, ensure that communications and tourism research are incorporated into all program areas, and integrate the Hawaiian culture into all HTA initiatives.

IMPROVE THE INTEGRITY OF THE DESTINATION

Hō'i hou i ka mole.
Return to the taproot.

Just as the taproot is the source of life for the healthy tree with strong branches that spread wide, so, too, is Hawaiian culture and the natural environment the source of life for Hawai'i's tourism future. They must always be nurtured to flourish.

MAINTAINING THE BRAND

This section illustrates programs that have been developed to sustain and enhance Hawai'i's brand promise. These programs address the long-term sustainability of the destination as it relates to the fundamental elements that define the Hawaiian Islands: people, place and culture.

CHANGES IMPLEMENTED

- Additional marketing support for festivals and events to build awareness and attendance. Support included capacity, building workshops, global marketing and outreach through HTA's Global Marketing Team.

TRANSIENT ACCOMMODATIONS TAX COLLECTIONS

The collection of the Transient Accommodations Tax (TAT) benefits Hawai'i as a whole and, ultimately, individual counties and state residents. Importantly, the revenue makes it into local communities on each island to support schools, police, infrastructure and parks, and contributes to an improved quality of life for residents. In FY 2016, Hawai'i collected a total of \$446.8 million in TAT, marking a 6.2 percent increase over FY 2015's total collection of \$420.9 million. In FY 2016, the state's General Fund received \$227.3 million in TAT.

The annual allocation of TAT to the Tourism Special Fund and Convention Center Enterprise Special Fund is \$82 million and \$26.5 million, respectively. The allocation of TAT to the Convention Center Enterprise Special Fund remains the same at \$26.5 million. Additionally, \$103 million of TAT is allocated to the counties and \$3.5 million is allocated to the DLNR, including \$500,000 for due diligence and closing costs related to the Turtle Bay conservation easement purchase. An allocation of \$1.5 million is made to the Turtle Bay Conservation Easement Special Fund.

ENSURE STABLE ECONOMIC BENEFITS

Hawai'i tourism is most successful when all stakeholders collaborate, partner and collectively work for the common purpose of feeding the community. Everyone fishes together.

BRAND MANAGEMENT

The purpose of the Hawai'i Tourism Authority's Brand Management efforts is to attract global travelers to the Hawaiian Islands through strategic, integrated and impactful destination marketing initiatives that tie in closely with access and business development. HTA's detailed implementation plans with specified indicators demonstrate its focus on meeting its goals and objectives in this area.

MAJOR MARKET MANAGEMENT

A fifth consecutive year of record-breaking growth in both visitor arrivals and spending put an exclamation mark on Hawai'i's tourism story in 2016, with the industry remaining the state's lead economic driver. HTA's Global Marketing Team has worked diligently to keep the state's level of growth on a positive trajectory to ensure economic stability for the Hawaiian Islands and sustainability for the tourism industry.

In 2016, HTA's Global Marketing Team included representation in nine major marketing areas (MMAs), provided by the Hawai'i Visitors and Convention Bureau (North America), Hawai'i Tourism Japan, Hawai'i Tourism Oceania (Australia and New Zealand), Hawai'i Tourism Korea, Hawai'i Tourism China, Hawai'i Tourism Taiwan, Hawai'i Tourism Southeast Asia, Hawai'i Tourism Hong Kong, and Hawai'i Tourism Europe (United Kingdom, Germany Switzerland, France and Italy).

HTA's Global Marketing Team is in charge of developing strategic plans and cooperative programs to promote travel to Hawai'i in their respective regions. These plans and programs include public relations, advertising, promotions, travel trade and MCI (meetings, conventions and incentives) marketing, education and training, and stakeholder communications and relations.

NORTH AMERICA

North America is Hawai'i's largest source market for visitors, with domestic air seats accounting for 69 percent of total seats to the state. With the U.S. dollar strengthening and foreign currencies falling, competition from other destinations remains an obstacle. In 2016, HTA worked with the Hawai'i Visitors and Convention Bureau (HVCB) as its marketing contractor for North America.

JAPAN

Japan is Hawai'i's largest international visitor market, comprising 17 percent of total arrivals to the Hawaiian Islands in 2015. CHINA

In 2016, HTA selected BrandStory Asia as its new marketing contractor to provide destination representation services as Hawai'i Tourism China (HTC). Online and social media consumer promotions, as well as co-op programs with travel-trade partners, were increased to position Hawai'i as a premium stand-alone vacation destination and drive travel demand. Slowdown of economic growth in China did not significantly impact the rise of independent travelers from the market.

2016 HIGHLIGHTS

- Launched the 6 Travel-Spirations social media campaign in July, which promoted Hawai'i with interactive and engaging digital mobile games targeting millennials. The campaign's partners were Mafengwo, a top user-generated content travel website, and Ctrip, China's largest online travel agency. Within the campaign's first three days, page views climbed to 10.26 million. To date, more than 30,000 consumers have played the game.
- Collaborated with Jiangsu Television to bring China's top romantic television series *We Are in Love* to Hawai'i, featuring celebrity couple Shawn Yue and Zhou Dongyu. Buzz surrounding the series resulted in 7.67 billion page views on *We Are in Love*'s Weibo account and more than 5 million posts and comments.
- Conducted a Camp Aloha sales mission in Beijing, Shanghai and Chengdu with 47 stakeholders representing 23 Hawai'i businesses and more than 300 Chinese trade and media partners. More than 1,400 one-on-one meetings were conducted during the event. Ma'ema'e Program training and Hawaiian cultural performances were integral parts of the mission for 2016.

EUROPE

Hawai'i Tourism Europe (HTE) is HTA's marketing contractor targeting visitors from the United Kingdom, Germany, France, Switzerland, Italy and Scandinavian region. In 2016, HTA selected Hills Balfour as its new destination representative for the European market. Overall, European arrivals to Hawai'i were down slightly in 2016 compared to 2015. Factors contributing to the dip included the strength of the U.S. dollar over the Euro and British pound, the impact of Brexit on United Kingdom travel, and issues relating to terrorism in Europe. Despite this, discussions with European tour operators revealed that Hawai'i sales are stronger than other U.S. destinations.

2016 HIGHLIGHTS

- Introduced the Hawai'i Challenge online game to the United Kingdom and German consumer and travel trade markets. The game challenged users to learn about Hawai'i and create a vacation itinerary. Hawai'i Challenge experienced nearly 40,000 game plays, generating 3.6 million impressions and 65,000 hub interactions with more than 26,000 United Kingdom and 12,000 German players.
- Launched a consumer promotion partnership with United Kingdom-based tour operator Virgin Holidays, which included television and online advertising, social media (Facebook and Instagram), and Hawai'i imagery on plasma screens placed in 100 of its retail stores. Maui was featured in a live Virgin Holidays advertisement during the British reality TV music competition *The X Factor*, earning 6.3 million views.
- Introduced a collaborative partnership with Germany-based Condor Airlines on out-of-home advertising, utilizing billboards and tram wraps in the Frankfurt area, and offers enticing people to visit Hawai'i.
- Conducted a productive Aloha Europe sales and media roadshow, which brought 12 Hawai'i industry partners through Paris, London, Zurich and five German cities. The program successfully trained 450 travel agents, engaged with media at four events, and met with key tour operator product and marketing managers.

2016 HIGHLIGHTS

ONLINE/WEBSITE PROJECTS

The way people consume digital media continues to rapidly shift. Strategies focused on page views, unique visitors and homepage entry are less relevant today and will play an even smaller role in the future. Hawai'i's target travelers are discovering and making travel decisions by researching on social networks, engaging with live videocasts, and browsing related content throughout the day.

For Hawai'i to remain competitive, a digital marketing strategy must address this fundamental shift in behavior. To accomplish this, HTA works with its Global Marketing Team to manage and maintain all of the websites promoting the Hawaiian Islands. This includes the GoHawaii.com leisure and travel trade sites, MeetHawaii.com, and the HawaiiTourismAuthority.org websites. To ensure a unified message, marketing strategy and branding, HTA also works with its global partners on marketing and social media initiatives.

2016 HIGHLIGHTS

- Launched the new GoHawai'i mobile app with a focus on visitor safety and education, and providing essential destination information designed to encourage visitors to fully enjoy the Hawaiian Islands. The app was also made available in multiple languages.
- Debuted Hawai'i VR, HTA's virtual reality marketing program, at the 2016 Hawai'i Tourism Conference.
- Introduced a facial recognition marketing program in partnership with Expedia. The groundbreaking technology is a first for promoting destination travel and is available to Expedia users in Japan, Oceania, the United States and Canada. It launched at the 2016 Hawai'i Tourism Conference.

2017 FOCUS

HTA will continue to focus on developing digital marketing campaigns supporting the efforts of the Global Marketing Team and drive destination demand for audiences worldwide. The online efforts will raise awareness of Hawai'i with a mission of guiding consumers toward the purchasing stage with conversion handled by industry partners.

- Online channels tailored to each market, such as paid search, will drive demand for audiences searching for information on Hawai'i utilizing locally relevant search engines.
- Locally relevant social media platforms will be updated and developed to create highly targeted connections to audiences intending to travel. Integrated video, where applicable, will increase engagement.

ELEVATE HAWAII'S VALUE PERCEPTION

Ke one lau'ena a Kāne.

HAWAI'I TOURISM CONFERENCE

September 26-30, 2016

Inspired by the theme *Transforming Tourism Together*, HTA expanded the Hawai'i Tourism Conference to a full week and concentrated its focus on providing attendees with industry insight while allowing them to voice their opinions on Hawai'i's tourism future. The change in format proved to be successful.

The 2016 Hawai'i Tourism Conference drew 2,100 attendees – a 70 percent increase over 2015 – with 18 countries represented. There were 79 sessions and special events – the most ever for the conference – including 10 sessions devoted to Hawaiian culture. Another first was the inclusion of exhibit booths at The Village Square, which featured 59 exhibitors.

2016 HIGHLIGHTS

- Redesigned the conference format to facilitate dynamic global sessions encouraging engagement and thought-provoking dialogue between panelists and the audience.
- Created more opportunities for collaboration and networking with fellow attendees through:
 - The Village Square, an exhibition area for attendees to interact with the Island Chapter Bureaus and industry partners, attend sessions, engage in networking breaks, and experience new technology.
 - Morning and evening events and activities.
 - Pre-conference tours to the neighbor islands.
- Hosted the inaugural Executive Summit, bringing together a select group of local and international CEOs and leaders of major corporations for two days of engagement on the island of Hawai'i and O'ahu. The summit offered participants an opportunity to hear from and interact with innovative industry leaders.
- Hosted the conference's second annual Airline Summit for route planners to educate them on trends and opportunities in the Hawai'i market. In addition to designing a special conference session track for planners, HTA offered the group an opportunity to visit Kaua'i on a familiarization trip.
- HTA's annual Tourism Legacy Awards recognized surfing, one of Hawai'i's gifts to the world, with a special tribute honoring Hawai'i surfing legends Richard "Buffalo" Keaulana and George Downing, and their 'ohana.

2017 FOCUS

- Making the 2017 Hawai'i Tourism Conference, set for September 19-21, an even greater success.
